2025	8.13	12.42

Average: 8.89 – 14.92 miles over 5 years

We are an extremely popular and successful school and in the past the pressure on places has been intense. The average area within which we are able to offer places has been around 8.89 miles in March. However, we have been able to offer places to children who lived much further away, although not necessarily in March when the first offers are made. For various reasons a number of places become available between March and even as late as July, as illustrated in the table above.

If you name Hillview School for Girls as a higher preference than the school you are offered, you will be added to the Hillview waiting list by KCC. There is a re-allocation of places towards the end of April. If you are not offered a place at this point, you will remain on the waiting list when it is handed back to the school to manage.
